For more information on these schedules, including information on GSA Schedule vendors, please visit [www.gsa.gov/elibrary](http://www.gsa.gov/elibrary)

#### **Vehicle Leasing**

GSA Fleet is a full-service, professional fleet management organization providing quality vehicles to federal customers. GSA Fleet's comprehensive leasing program provides customers with vehicle management support for the life cycle of the vehicle.

This support encompasses vehicle acquisition, asset management, maintenance and repair, fuel, accident management, and vehicle remarketing. GSA Fleet relieves participating federal customer agencies of many administrative, management, and functional tasks, allowing agencies to focus valuable resources on the performance of their core mission.

GSA Fleet consists of a variety of non-tactical vehicles including sedans, passenger vans, trucks (light, medium and heavy), buses, ambulances, alternative fuel vehicles (AFVs), and limited types of special-purpose vehicles. GSA Fleet manages more than 190,000 vehicles, which rates it among the largest non-tactical fleets in the federal government.

#### **In addition to providing day-to-day operational support to our customers, GSA Fleet covers:**

- Risk-free lease arrangement
- Low national lease rates set annually for easy budgeting
- Unlimited mileage
- Complete vehicle acquisition services – from ordering to delivery
- Asset management to include monitoring all expenses
- Widely accepted GSA Fleet Services Card
- Maintenance and repair (including car washes)
- Fuel expenses included in the lease rates
- Online mileage reporting and vehicle inventory reports
- Accident management assistance
- Vehicle remarketing and disposal services
- Operational support provided through a network of Fleet Service Representatives

Included in these categories are all of the management and administrative functions required of a large fleet operation. These include: inventory control; fleet utilization and rotation; financial management; development of user rates; systems operations; initiating billing and payment transactions; personnel management; customer and vendor liaison; control of license tags and fleet services card; tracking of automotive technological advances and safety initiatives; and ensuring compliance with fleet-related legislative mandates and regulations. We also educate and assist customers with various alternative fuel vehicle (AFV) initiatives that affect the federal fleet.

GSA Federal Supply Service

Vehicle Acquisition  
and Leasing Service

# Office of Vehicle Acquisition and Leasing Services

The Office of Vehicle Acquisition and Leasing Services provides customer agencies with quality vehicles and fleet management services at economical rates. By leveraging the government's large procurement volume, GSA is able to procure more than 65,000 vehicles annually at substantial savings to the government. This buying power also enables GSA to provide better-than-competitive leasing rates on its worldwide fleet of more than 190,000 vehicles. Whether you need to buy or lease, the Office of Vehicle Acquisition and Leasing Services offers the acquisition excellence to meet your vehicle needs.

## VEHICLE ACQUISITION

GSA Automotive is the purchasing arm of GSA's Office of Vehicle Acquisition and Leasing Services. We leverage the government's buying power to purchase more than \$1 billion in high-quality vehicles and automotive services annually at significant savings for customer agencies. GSA Automotive offers a large selection of vehicles and related products and services, all available on multi-year contracts and on Federal Supply Multiple Award Schedules.

## GSA AUTOMOTIVE OFFERS THE FOLLOWING BENEFITS:

- Low prices
- Professional contracting teams
- Professional engineering services, including technical assistance and vehicle design services
- A wide variety of vehicle types
- Established multi-year, multi-vendor contracts that provide a choice of vehicle models
- Informative Web site providing online ordering, price comparisons (AutoChoice™, available at [www.autochoice.gsa.gov](http://www.autochoice.gsa.gov)) and online order status updates
- Easy ordering
- Express Desk for urgent and compelling requirements
- Choice of delivery to a nearby dealer or direct to your location
- Dedicated Customer CARE team

## PRODUCTS AND PROGRAMS

GSA Automotive offers its customers a wide range of light, medium, and heavy vehicles and trucks, commercial vehicles, accessories and equipment, directly from Original Equipment Manufactures (OEMs), as well as under its three Federal Supply Multiple Award Schedules.
